

Dave Boswell, BD.AIBC, AScT

- I am a Building Technologist graduate – BC Institute of Technology – 1978
- I am an Independent Building designer providing services since 1986. Projects have ranged from commercial buildings, both new and additions, to single family residences, again both new and additions/renovations.
- I have also been working with FOCUS Architecture Incorporated and it's predecessor firms since 1989. In my time with FOCUS I have perform a myriad of duties from junior draftsman to senior management. My present duties as the senior Technologist include liason with Clients, Consultants, Contractors and Authorities Having Jurisdiction providing coordination and clarifications during the permitting and construction stages of our projects. I also provide Code analysis and technical advice for ongoing projects in the design and construction document phases in the office.

- I have been married for 29 years and have three children aged 24, 25 & 27. We are also expecting our first grandchild this fall.
- My free time is taken up with golf and curling. We also try to spend time camping with family and traveling when possible.

- Member of Applied Science Technicians and Technologists of BC since 1978
- Current member of ASTTBC Provincial Council
- Former member, Board Member & President –Building Designers Institute of BC
- Chair of AIBC BD/RD Qualifications Committee
- Member of AIBC “Matrix Reloaded” Task Force

- I am seeking this position to provide a voice for the BD/RD registrants in the affairs of the AIBC.

- In this position I hope to provide effective representation for BD/RD registrants as we move toward a new, inclusive regime in the governance of the built community under a revised, updated Architectural Professions Act.

- I believe the AIBC is, and will continue to be, the definitive voice of the architectural profession in BC. The education of all stakeholders in the built community as to the requirements of the present statute, and the proposed new Act, is essential to ensure the protection of the public interest.
