Presenter, Fred Jackson

Accredited by the AIA (Canada & US), HSW additional credit, IIDA (ASID IIDA credit)

*This seminar is eligible for 6 CORE learning units under the AIBC Continuing Education System*

**Stone 101 Stone Quarrying, Selection, Selling and Proper Application**

- Regions that quarry the stone
- Technical characteristics of the stone
- Sealing, Installation and Maintenance
- Contemporary applications and uses in design

**Stone 201 Stone testing, specifying, fabrication, and install recommendations**

- What machinery is used for fabrication
- Basic edge details and finishes
- Applications and use in design
- Installation and stone Testing issues

**Care and Maintenance of Stone**

- Basic Types and characteristics of Stone
- Choosing the right sealer for the right type of stone
- Important components of a good maintenance program
- How to solve and prevent some common installation problems

**Green Issues of Natural Stone**

- What is LEED
- What are the environmental categories
- How materials contribute to LEED
- How Stone, Tile and decorative products are used in Green buildings.

Attendees will leave this informative seminar with first hand knowledge of the industry and with valuable documentation to be used as reference material. As an added benefit, attendees will also be eligible to purchase the TTMAC Dimension Stone Guide Volume II for a cost of \$112.50 each which is well below the selling price of \$225.00. This seminar would be advantageous to sales personnel, architects, designers and support staff.

**REGISTRATION FORM (Return by Fax to 905.660.0513)**
