

## Help Guide the Future of the Profession! Become a Mentor

The AIBC maintains a list of available Mentors as a resource for new Intern Architects. Please fill in the following information if you are interested in being a Mentor or are currently a Mentor and are available to mentor additional Interns. If you would like to review the Mentor Guidelines please click [here](#). The document is also available to download from the Intern Architects section of the AIBC website.

Mentorship is an invaluable resource and fulfills an important requirement of the Intern Architect Program. A mentor provides guidance and advice on practical knowledge and professional issues, as well as reviewing and discussing experience.

The information you provide will be included on a list available to potential Intern Architects upon request. You may, at any time, contact the AIBC and have your name removed from the list.
