THE ART OF CONVERSATION

The art of conversation is more than a meeting of the minds where ideas, thoughts and experiences are shared. The real value in meaningful conversation is when something new is learned, when mindsets are reshaped and, ultimately, when a different perspective is gained.

AIBC Confab is a new one-day professional development event that offers an interactive workshop, panel discussions, and seminars; all with the common goal of promoting conversation and a shared learning experience.

CONFAB SESSIONS BY AREAS OF INTEREST

BUSINESS

Business Development via Engaged Conversations
The Future of the Profession
First Nation Community Engagement
Design as a Unifier and Catalyst for Transformation

CASE STUDIES

The Halifax Central Library: Designing Through Community Conversation
Vancouver's Family-Friendly Housing
Heritage Structures: Opportunities and Challenges
100 Mile Building: Generating Local Solutions

DESIGN/INSPIRATION

Affordable Housing: A Role for Architects
Geometry with Feeling
Understanding Real Feng Shui and Its Impact on Architecture
Green Zoning versus Green Building

WORKSHOP: THE FUTURE OF DESIGN DELIVERY

This interactive workshop will cover some of the latest advancements within design technology. Participants will work directly with this technology and see the applications for practice first hand.
