## CHAPTER 106.

An Act to incorporate The Architectural Institute of British Columbia.

[Assented to 17th April, 1920.]

**WHEREAS** a petition has been presented praying that the qualifications necessary to permit persons to act or practise as architects be established by legislation:  
And whereas it is expedient to grant the prayer of the said petition:

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of British Columbia, enacts as follows:—

1. This Act may be cited as the "British Columbia Architects Short title Act."

### *Interpretation.*

2. In this Act, unless the context otherwise requires:—

(a.) The expression "architect" means any person who is engaged for hire, gain, or hope of reward in the planning or supervision for others of the erection, enlargement, or alteration of buildings for persons other than himself; but shall not include any draughtsman, student, clerk of works, superintendent, or other employee of a registered architect, nor any superintendent of buildings paid by the owner thereof acting under the directions and control of a registered architect:

(b.) The expression "building" means a structure consisting of foundations, walls, or roof, with or without other parts.

3. (a.) No corporation shall be licensed to practise architecture within this Province or be granted a certificate of registration under this Act, but it shall be lawful for a corporation to be incorporated under the laws of this Province for the purpose of practising architecture, and for the purpose of carrying on the business of an architectural firm, and for the purpose of employing architects, draughtsmen, and other persons, and for the purpose of acquiring and holding property, and for the purpose of doing all such things as may be necessary for the purposes aforesaid.

The AFBC is creating an architectural and design legacy for the people of British Columbia.

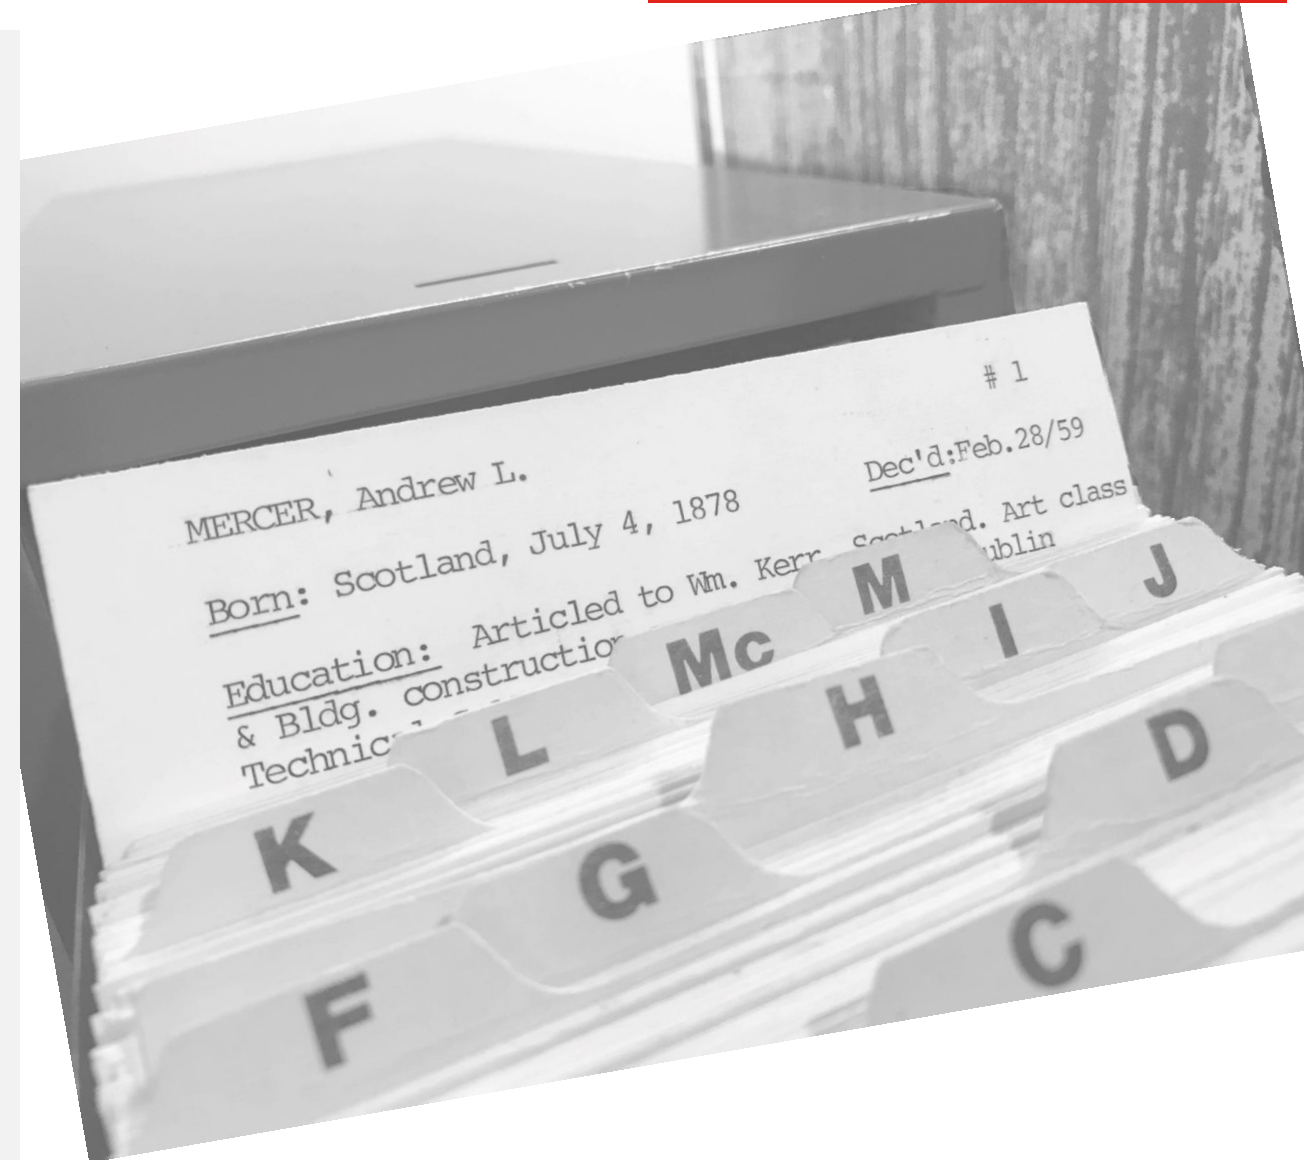

**Design impacts us all.**

Since 2001, AFBC has created programs and funded initiatives to connect BC Communities with all things design. The foundation was formed by a group of BC architects who saw the need to better educate the general public on architecture and design, and to support the design community through the provision of grants, scholastic awards and events.
